

Product Demonstrations

Company	Representative	Product/Topic	Time Slot	Location
ABB	Ed Smyth	Entry Level SCADA System for small LDC's	10:00 AM	Classroom 1
Dresser	Dave Manfroni	Pressure Regulation and Flow Control Products including Mooney, FlexFlo and Becker equipment. Demonstrate how these products provide reliable performance and reduction in O&M costs, lost and unaccounted for gas, and excessive noise.	10:00 AM	Classroom 2
C O – Experts	George Kerr	SIDE by SIDE DEMO on the various C O alarms available, and the C O data-logging capabilities of C O – Experts, C O Monitor	10:00 AM	Classroom 3
Actaris U.S. Gas, INC	Nick Mullen	Fluidic Oscillation and Dattus meter - updated technology to obtain more accurate measurement information.	10:00 AM	Classroom 4
Heath Consultants	Jon Chapman	Laser Leak Detection RMLD	10:00 AM	Open Demo 1
Timberline	Ken Green	Squeeze-off tools for PE pipe, along with new products to repair damaged or defective pipe.	10:00 AM	Open Demo 2
MapFrame Corporation	Britton Cronin	FieldSmart Inspect Product - a powerful tool for data collection and inspection. Inspect automates scheduled inspections using a map-based interface and replaces paper-based processes. Captures and geocodes data in the field and passes it back to MapFrame's server component Field Flow Manager. Step by Step on how FieldSmart Inspect automates leaks, leak survey, valves, CP and other code compliance inspections through a map-centric approach.	11:00 AM	Classroom 1
Robert S. Hudgins Co	Robert Hudgins	Ultrasonic Flow Metering from Daniel Measurement	11:00 AM	Classroom 2
Emerson	Ken Ludvigsen	Commercial Service Regulator platform; includes an overview of the new actuator sizes, two new bodies, and several options for over-pressure protection including large capacity internal relief, secondary orifice, slam-shut, and a true monitor. A 4" Transmission Regulator with removable trim and options for noise reducing trim and both fail-closed and fail-open spring designs. New Odorizer including the ROC809 flow computer for odorant dosage calculation and electronic records management.	11:00 AM	Classroom 3
Open			11:00 AM	Classroom 4
Dresser	Nielsen, Larry	Dresser Blackhawk pressure fittings for Hot Tapping and Plugging service. Demo of the M4 hot tap machine	11:00 AM	Open Demo 1
Southern Cross Corp	Denise Cardello	'46 Hawk Leak Survey Instrument, leak detector and CGI, runs on rechargeable batteries lasting 40 hrs with lithium backup lasting 6+ hrs, eliminating cost of fuel. One button operation, walk with unit and probe cone dragging alongside, lightweight, rests in palm.	11:00 AM	Open Demo 2
ESRI, Inc	Laurence Litrico	Enterprise Geographic Information Systems (GIS) for utilities	1:00 PM	Classroom 1
Bartlett Controls	Chad Millinor	Cold Weather Technologies Advancements in Pipeline Heater Technology - Heat Driven Loop Technology that improves efficiency, eliminates glycol, reduces greenhouse gas emissions, and reduces noise.	1:00 PM	Classroom 2
ELSTER PERFECTION	Dan Knight	Excess Flow Valve (EFV) history, function, configurations, operations. Product demonstration includes products and props, review sizing, sudden surge, and service line length.	1:00 PM	Classroom 3
Bristol Babcock	David Farris and Terry Cox	Bristol 2-4 Run Gas Flow Computers -	1:00 PM	Classroom 4
J And N Enterprises, Inc	Brett Jones	Sensit LMD (Laser Methane Detector) - detects only Methane in PPM, LEL, % Volume, and is also capable of vehicle and ATV mounts for locating leaks quickly.	1:00 PM	Open Demo 1
Open			1:00 PM	Open Demo 2
