It is a delight to welcome you to my home state of South Carolina and to the 2016 Spring Gas Conference and Expo. Thank you to the Carolinas Public Gas Association and the American Public Gas Association for once again partnering with SGA to sponsor this event. As the 14th annual conference, and third with the three association partnership, we continue to see the momentum grow and are excited you have chosen to be a part of this year’s event. It is our goal to offer a variety of topics for your personal and professional development. Each year, the feedback from attendees note that their most valuable takeaways are the many opportunities to hear from peers their successes and lessons learned. Please take the opportunity during this conference event to network and speak to others sharing your experiences in both small conversations and during your sessions. I promise you will not regret your engagement and transparency when you interact with the attendees at our event.

I believe our conference planning team met the challenge to offer sessions that meet the needs of all professions within the natural gas industry including learning tracks for technical and field professionals, sales and marketing, integrity management and accounting. I am very excited that our team discussed the importance to include a session on safety this year. Without a doubt, safety of our personnel and pipeline facilities is to come first in the planning and execution of every activity we perform.

During our event this year, we are doing something very special! Our committee is recognizing our active duty military service personnel. One of our very own committee members, Greg Brown, has recently been deployed overseas to serve. He has been an ACTIVE (and I meant to capitalize this) participant in the Spring Gas Conference Planning Committee for many years and his presence is missed during our event this year. Please take the opportunity to share with the registration desk any active duty military employees you may have within your teams. We will be collecting donations and items to send overseas to any Natural Gas Industry employees currently serving.

Before I close, I’d like to thank each of you for attending our conference and bringing your expertise to our gathering. Sharing your experience and knowledge during our event will elevate us all to reach new heights within our companies and across our industry. You are truly our greatest asset today and tomorrow, and we could not accomplish what we do without your support and leadership. Throughout this conference, I ask you to stay engaged, keep us proactive and help us shape the future of the natural gas industry.

My personal respect and thanks goes out to all of you!

Deana Keever
Director of Operations
York County Natural Gas Authority
Rock Hill, South Carolina
Visit Your Exhibitors

Please take advantage of the opportunity this week to visit with some of the over 100 exhibitors who are here to meet you. Please take time during your scheduled breaks, meals and the receptions to visit their booths and learn about how they can serve your company. Your blue door prize card is valuable! A card with signatures from eight different exhibitors gives you a chance to win one of the five $100 cash door prizes to be awarded during the Tuesday night reception. You must be present to win and you can only win once.

Are you ready for some Cornhole?

Visit the registration desk and sign up for the cornhole (beanbag toss) tournament scheduled for the evening reception on Tuesday. You will need a partner, so bring a friend along or use this opportunity to make a new one. Each member of the winning team will receive a set of customized cornhole boards shipped to the address of their choice; runners-up will each receive a $100 American Express gift card. Thanks to the following companies for sponsoring the boards used in this year’s tournament.

Last year’s custom sets, designed by the winning team
HONORING THOSE WHO SERVE

Greg Brown, Manager Operations and Maintenance for Piedmont Natural Gas has served on the planning committee for the Spring Gas Conference and Expo for many years. He isn’t here in Columbia this year, because Senior Master Sergeant Greg Brown is deployed in the Middle East with his Army Reserve Unit. Citizen soldiers like Greg insure our day to day safety and protect the freedoms we enjoy as Americans.

In an effort to demonstrate our appreciation to Greg and others who make the personal sacrifices necessary to provide us with these protections, we are asking for your help in pulling together items for care packages to be sent to military service members deployed overseas. You can help with this effort by:

1. **Donating an item** in the collection container near the registration desk. A list of suggested items was included with the pre conference email you received last week.

2. **Making a cash donation** at the registration desk that can be used to buy items to be included in a care package.

3. **Providing the name** and mailing address of a coworker or family member who is deployed overseas. We will send packages to as many of them as donations permit.

Email: Lucie.C.Martucci@DuPont.com www.dupont.com
You can’t predict when a fire or electrical hazard will occur or how intense it will be. With so many unknowns, workers that are exposed to flame, fire, and electric arc hazards rely on flame resistant clothing made from DuPont brands. We believe that just meeting standards isn’t enough. In fact, we go beyond basic test methods and test Nomex® in 4- and 5-second fires to give workers those valuable extra seconds of protection.

M. T. Deason Company was founded in 1982 as a manufacturer's representative and distributor for the natural gas, water, wastewater and industrial markets. Knowledge of these industries through our customer relationships influenced our decision to manufacture a variety of electrofusion fittings that were not available to fulfill customer needs. We developed our MTD TRI FUSION Electrofusion System with the customer in mind and entered the market in 2004.

Magnolia River is a client focused, quality driven company of trusted professionals who provide tailored infrastructure and geospatial solutions worldwide. Magnolia River delivers GIS and software solutions, comprehensive transmission and distribution pipeline design, engineering, inspection, and project management services from the wellhead to the end user tailored to meet client requirements and ensure greater safety and compliance. Client focused. Quality solutions. Trusted professionals.

USA Compression
400 Alpha Drive
Canonsburg, PA 15317
Phone: 724-743-2101

CONTACT: Fiona McGrath Email: fmcgrath@usacompression.com www.usacompression.com

USAC focuses largely on compression services serving infrastructure installations, including centralized natural gas gathering systems & processing facilities, which utilize large HP compression, typically in shale plays. We also provide services in more mature conventional basins, including gas lift applications on crude oil wells targeted by horizontal drilling techniques and compression to boost into end user systems, such as power plants and manufacturing facilities.

Utilities and Industries
1995 Industrial Blvd
Reynoldsville, PA 15851
Phone: 814-591-9607

CONTACT: Rich Filer Email: rfiler@uti.com www.utilitiesandindustries.com

Utilities & Industries will provide the natural gas industry with the most accurate and precise meter calibration & re-manufacturing of meters in the industry. To sustain our vision and mission we will constantly see innovative ideas and pursue ethical business practices to help our clients gain great profits.

www.compositesleeve.com/  
Composi-Sleeve™ is a patented pipeline repair solution that supports pipeline flow. The Composi-Sleeve™ utilizes a military-grade chemical welding process to repair pipeline anomalies (cracks, dents, corrosion, wall loss and leakage) without taking the pipeline out of service — saving millions of dollars.

Wigersma & Sikkema  
Booth 315  
Leigraafseweg 4  
Doesburg, 6983 BP  
Phone: 31 313 471998  
CONTACT: Jan Sietsma  
Email: aalong@equipmentcontrols.com  
Wigersma & Sikkema develops, manufactures and markets the PLEXOR inspection system for gas pressure regulating stations. The company was founded in 1921 and operates as an independent supplier on the international market for the distribution of natural gas. Wigersma & Sikkema is a market leader in various countries in Western Europe, and is now expanding its activities to the USA. PLEXOR fits in well with all current maintenance strategies and can pave the way for condition based maintenance.

Year Round Virtual Forums:
Connect@SGA

Would you like to get the kind of valuable interchange you've experienced at an SGA Roundtable delivered right to your desktop? With Connect@SGA you don't have to wait for the next industry meeting, conference or webinar to address an industry related issue or to seek answers to questions.

This online platform links you to other industry professionals, beyond your current network of contacts - when you need answers or ideas sooner than later!

Join the discussion. Experience community. Create an account at Connect.southerngas.org.
This form is provided for your convenience as a record of satisfactory completion of Professional Development Hours

Name of Participant: ________________________________

Name of Conference: 2016 Spring Gas Conference and Expo

Field of Study: Natural Gas

Courses: 3 PDH Hours

☐ Abnormal Operating Conditions
☐ Cathodic Protection
☐ Control Room Management
☐ CPGA Operators Meeting
☐ CPGA Spring Board Meeting
☐ Creative Safety Engagement
☐ DIMPLOLOGY 101: The Distribution Integrity Rule & It's Impact
☐ Emergency Response, Liaison and Incident Investigation
☐ Excavation Safety and Competent Person
☐ Get Your Feet Wet in Basic Instrumentation and SCADA
☐ Horizontal Directional Drilling
☐ Inline Inspection Overview (Piggability)
☐ Inspecting the Installation of Pipelines
☐ Locating Methods & Technology
☐ Materials Management, Traceability & Contract Administration
☐ Measurement & Meters Fundamentals
☐ New Technologies for Regulatory Compliance
☐ Regulator/Relief Valves

Courses: 6 PDH Hours

☐ Service Tech - Advanced
☐ Service Tech - Basic
☐ Tapping & Stopping
☐ Valve School
☐ Welding Inspection
☐ Work Zone Safety

Courses: 9 PDH Hours

☐ Accounting Roundtable
☐ Gas 101
☐ Gas 201: Distribution System Design for System Expansion and Reinforcement
☐ Introduction to the Natural Gas Industry
☐ Leak Investigation and Grading
☐ Ratemaking
☐ Transmission Integrity Management Roundtable
☐ Women & Leadership

Courses: 3 PDH Hours

☐ Service Tech - Advanced
☐ Service Tech - Basic
☐ Tapping & Stopping
☐ Valve School
☐ Welding Inspection
☐ Work Zone Safety

Courses: 6 PDH Hours

☐ Accounting Roundtable
☐ Gas 101
☐ Gas 201: Distribution System Design for System Expansion and Reinforcement
☐ Introduction to the Natural Gas Industry
☐ Leak Investigation and Grading
☐ Ratemaking
☐ Transmission Integrity Management Roundtable
☐ Women & Leadership

Courses: 9 PDH Hours

☐ Everything DIM
☐ Sales & Marketing Seminar

Total PDH Credit Hours: ____________

Date Attended: March 14 - 16, 2016

Sponsor: Southern Gas Association
3030 LBJ Freeway Suite 1500
Dallas, TX 75234

Authorized Signature: ________________________________

Mike Grubb
President & CEO
Southern Gas Association

This document is provided for your records. Your signature on the Sign-In Sheet for the Session(s) you attended is SGA’s record of your attendance.
SGA Safety Rules

- In the Event of an Emergency, convention center staff will be present and will direct attendees.
- Identify someone in your session as a buddy who you will look for at the safe assembly area.
- Write any personal medical conditions that emergency responders should know on the back of your name badge.
- Before your meeting starts identify who in attendance are CPR and AED certified.
- The Convention Center’s AED is located at the front desk in the main lobby on the upper level.
- Identify at least two people in your session who will be designated 911 callers.
- Are there safety hazards in your meeting room? Let SGA staff know so they can be corrected.
- Security Phone: (803) 545-0001, Fire/Police/Medical Phone: 911

Convention Center Address:
1101 Lincoln St | Columbia, SC 29201
